PRESS RELEASE

Graebert Announces Widespread Availability of New Software and Holiday Promotions

**Release of ARES 2015 CAD Software for Windows, Mac & Linux and now Android;
Introducing the Cross-Device CAD Experience and Free Android Tablet Holiday Offer**

December 9, 2014 – Berlin – Graebert™ GmbH http://www.graebert.com – the pioneer in developing high-performance CAD solutions across desktop and mobile devices – today announced immediate availability of its acclaimed ARES™ Commander 2015 2D/3D CAD package on all three desktop operating systems: Microsoft® Windows®, Apple® Mac® OS X™ and Linux®.

A full list of new features is available at www.graebert.com – 30-day free software downloads for Windows (32- and 64-bit), OS X and Linux 64-bit, as well as videos, social media information and additional documentation may be found there as well. Graebert-developed CAD technologies are in use by more than 7M design professionals in more than 100 countries in 14 languages through not only ARES Commander, but also dozens of OEM partner solutions including DraftSight® and CorelCAD™ (which are both powered by the ARES CAD engine).

The company has also released ARES Touch 2015 Beta, the world's first DWG-based CAD solution for Google® Android®. Each user of ARES Commander 2015 will also receive ARES Touch for one year, renewable for successive one year terms with the Graebert subscription. Developers and CAD aficionados can also apply to join the final Beta phase on www.graebert.com/arestouch.

To enable the widespread adoption of Android in the CAD world, Graebert is offering a unique holiday promotion: for each perpetual license of ARES Commander 2015, Graebert will offer a €/$399 Amazon® Gift card to purchase a premium Android tablet such as the new Samsung® Galaxy® S Tab 8.4. The offer is valid until December 23, 2014 from Graebert's online store and participating resellers.

ARES Commander 2015 and ARES Touch enable Graebert's unique "cross-device CAD experience", first introduced at the Graebert 2014 annual meeting. Graebert now allows users to work from multiple computers or mobile devices.

With the LicenseToGo feature, the same user can work for a defined period of time on other computers at the office, at home or on the go. The LicenseToGo feature allows users to seamlessly work with different computers on Windows, Mac, Linux while ARES Touch extends the workflow to Android – an industry first. A video outlining the benefits of this may be watched at http://youtu.be/0tIsRVo7YIM

"Through a combination of hard work and an acclaimed product line, Graebert has established itself as the second-largest and fastest-growing CAD community with millions of professionals using our solutions," said Wilfried Graebert, founder and CEO of Graebert GmbH. "We provide unique features and unrivaled flexibility, while our historical competitor is pushing its customers into a subscription-only business model. More than a cost-effective alternative, Graebert has established ARES as a reference for innovation in the CAD market."

About Graebert

Graebert GmbH is a leading developer of custom CAD software, solutions and services. In use by more than 7M CAD professionals – the second-largest CAD community in the world – Graebert's CAD solutions were the first to support Windows, Mac and Linux (since 2010) as well as Android (since 2014). Celebrating more than 30 years of innovation, the company is headquartered in Berlin, Germany with additional offices in America, Asia and Europe. Further details at www.graebert.com
